MODULAR ROOFING

EXPERIENCED SUPPLIER OF TRUSTED BRANDS

About Stephens Industries

Stephens Industries are a market leader in EPDM solutions for over 40 years. Through our decades of experience, you can trust us to supply only the best roofing products.

As well as a wide range selection of roofing products and EPDM accessories, our professional UK-based fabricating abilities means we can manufacture bespoke-sized EPDM membranes to your specifications. This allows a one-piece installation of EPDM material, supplied direct from our custom-made factory solution.

Roofing System

We fabricate high quality roofing blankets seen from Jack-Leg site offices, to residential housing, to entire hospitals and everything in between.

ELEVATE EPDM

With a selection from Elevate 1.14mm LSRF and 1.52mm LSRF, as well as accessories, you can guarantee a quick and easy installation.

Elevate EPDM is UV and weather resistant and remains flexible down to -45°C.

Manufactured with an ISO 14001 certification, Elevate EPDM has a limited environmental impact during product use.

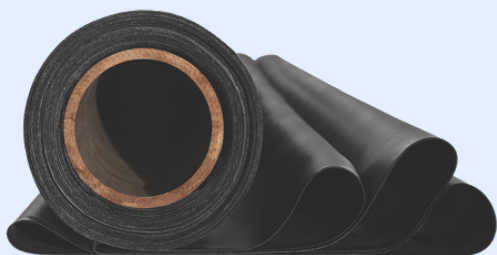

STEPHENS 0.5MM PVC

For a temporary solution an Stephens 0.5mm PVC blanket is available.

0.5mm PVC is highly flexible and can be manipulated for an easy installation. Each sheet is supplied as a single sheet and can be trimmed to size on site.

With a life span between 15-20 years and with a high UV resistance, you can guarantee your temporary solution is covered.

Products & Technical Guides

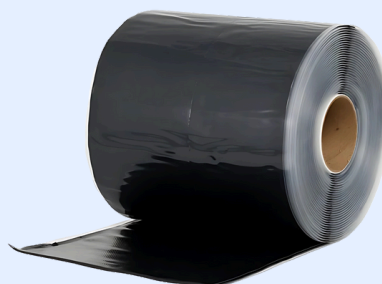

EPDM Rubber Roofing

Adhesives & Sealants

Trims & Fittings

Tapes & Primer

This hands-on training equips your team with the skills and confidence to achieve high-quality, long-lasting results on every project.

Partner with us today to ensure your roofing projects are backed by expertise, training and industry-leading solutions.

Transit Sheets

Stephens Industries modular covers provide high-quality protection for buildings, both during transport and while in storage. Our transit sheets have a unique design with internal straps and one ratchet strap per side meaning:

- **Quicker turnaround times due to easy installation & removal**
- **Reduced risk of straps flapping in high winds during transportation**
- **Reduced risk of tearing due to the even spread of tension**
- **Reusable and durable reducing your carbon footprint**
- **Professional finish with a range of colours and prints available**
